PROFESSIONAL SUMMARY

Commercial experience: 4 years 7 months

Middle Go Developer with commercial backend development experience since February 2022. I have used Go commercially since 2024. At Fitmost, I built three Go integrations from scratch and continue to maintain them. Earlier at Roistat, I also implemented several integrations in Go. My earlier backend experience was mainly in PHP.

TECHNICAL SKILLS

Programming: Go, SQL, PHP 5/7/8, JavaScript, HTML, CSS

Frameworks: Gin, Fiber, Yii2, Laravel

Data and messaging: MySQL, ClickHouse, Kafka, RabbitMQ

Tools and infrastructure: Docker, Git, Linux, CI/CD

Other: REST API, gRPC, Webhooks, HighLoad, Monolith, Legacy

WORK EXPERIENCE

Fitmost - Go Developer, Integrations

May 2025 - Present

- Built three Go integrations from scratch and continue to maintain them.
- Develop and maintain Go integrations with scheduling services and banks as part of the Business Development team.

Stack: Go, MySQL, Kafka, RabbitMQ, ClickHouse

Roistat - Go Developer, Integrations

January 2024 - May 2025

- Implemented several integrations in Go.
- Set up approximately 50 client integrations from scratch and conducted technical calls with clients.
- Integrated the end-to-end analytics system with client websites.
- Used advanced JavaScript for client-side integration work.
- Also worked with PHP 7/8 as an additional backend technology.

Stack: Go, MySQL, Advanced JavaScript, HTML, CSS, PHP 7/8

Oxem Studio - PHP Developer (started as Intern)

February 2022 - December 2023

- Started as an intern and supported websites built with core PHP and Laravel.
- Worked with more than 30 websites during this role.

Stack: PHP 5/7/8, Laravel, MySQL, JavaScript, HTML, CSS

LANGUAGES

Russian - Native | English - B1 (Intermediate)
